### DETAILED ACTION

In view of the papers filed December 12, 2002, the inventorship in this nonprovisional application has been changed by the deletion of Dr. Muratoglu.

The application will be forwarded to the Office of Initial Patent Examination (OIPE) for issuance of a corrected filing receipt, and correction of the file jacket and PTO PALM data to reflect the inventorship as corrected.

**A preliminary Amendment has been filed on Dec 30, 2002 in that claim 143 has**

**SUPPLEMENTAL**

**been added.**

#### ***Election/Restrictions***

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 124-130 and 143, drawn to a composition/process for preparing a medical implant, classified in class 522, subclass 161.
- II. Claims 131-142, drawn to a product composition and method for increasing the wear resistance of a preformed polyethylene, method of making, method for determining an optical radiation dose and thermal treatment, classified in class 522, subclass 153.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions are based on different steps of the process to form different products.

Art Unit: 1711

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
